

International Monetary Fund Internship Program - 2022 Fund Internship Program (FIP)

Author: Nicholas Mushayi . December 2021

Apply for the 2022 Fund Internship Program (FIP): International Monetary Fund Internship Program

DEADLINE: Not Specified

About IMF

The IMF works to foster global monetary cooperation, secure financial stability, facilitate international trade, promote high employment and sustainable economic growth, and reduce poverty. Our work on the macroeconomic benefits of challenges such as empowering women, modernizing the global trading system, wage inequity, and climate change, provides new ideas to safeguard the stability of the international monetary and financial system and addresses the world's most pressing macroeconomic and financial issues. Our 2,800 dedicated employees are leaders in their fields and collaborate to address the needs of our members and make a meaningful, positive difference in lives across the globe.

Work for the IMF. Work for the World.

Are you looking for an exciting and challenging internship at a prestigious, international financial institution?

Are you within a year or two of completing your Ph.D. in economics or a related field or completing a Master's degree in economics?

The International Monetary Fund's (IMF) Internship Program (FIP) may be the right opportunity for you!

Description

Successful applicants will undertake a 10-12 week paid internship between June and October 2022. The precise dates of the internship will be agreed between the intern and IMF supervisor at the time of offer. While the 2020 and 2021 FIP cohorts completed their internship virtually given the COVID-19 work

restrictions at IMF headquarters, we expect that for the 2022 FIP, the internship will be in-person located at the IMF headquarters in Washington DC.

Under the guidance of an experienced IMF colleague, you will conduct research and analysis on a topic determined by the Fund. Your work may culminate in a research paper and maybe published internally.

Qualifications

To compete for the FIP, at a minimum you must meet the following criteria:

Ph.D. students

- Be within one to two years of completing a Ph.D. in macroeconomics or a related field.
- Be in student status at the time of the internship (i.e. continuing PhD studies after the internship).
- Be below the age of 32 at the commencement of the internship.
- Have an excellent command of English, written and oral.
- Possess strong analytical, quantitative, and computer skills.

Master's students

- Completing a Master's degree in macroeconomics or a related field.
- Below the age of 28 at the commencement of the internship.
- Have an excellent command of English, written and oral.
- Possess strong analytical, quantitative, and computer skills. *To be considered, your application must include:*
 - Fully completed application form.
 - Responses to all questions.
 - A personal CV/Resume, as an attachment.
 - A recent transcript for the university program in which you are currently registered (showing your current status and recent grades). After submitting your application you will receive a system-generated acknowledgment. Only candidates who are identified for further consideration will be contacted by a FIP recruiter. Incomplete applications will be rejected.
