

Pro Sitemaps: The best website sitemap generator and maintainer

Author: Kudzai Derera . July 2021

If you are looking for an easy-to-use, reliable and informative website optimisation tool you should check out [Pro Sitemaps](#). Pro Sitemaps is a website optimisation tool that helps website owners with link management on their sites.

It enables users to generate the sitemaps, host the sitemaps as well as maintain them. [Pro Sitemaps](#) produces a very informative report divided into several useful sections which will give guidance on which links on the website need to be fixed.

The pricing of [Pro Sitemaps](#) starts from as low as \$3.49 and it can be paid monthly or annually. It also has a free version available! However, as soon as you get the first report you will be enticed to subscribe to get deeper insights on the links you have to fix and how you can fix them.

Besides the link management, [Pro Sitemaps](#) generates the sitemap for you and it then enables you to submit your sitemap to several search engines such as [Google](#), [Bing](#), etc. You do not need to be a tech genius to do the process, which is great!

It comes with a [nudging effect](#) (once set up) to give you an overview of the links on your site highlighting if there are issues to be addressed daily. This is awesome because you always manage to stay on top of the link management situation which means no or fewer penalisations from the search engines.

Below is a screenshot showing the daily update giving an overview of your sitemap and any issues that might need your attention:

Broken Links

None found

[Pro Sitemaps](#) also gives you a complete site structure with a breakdown of your website URLs structure. As we all know, the structure of your website is critical to your SEO strategy. This is because the [structure of your website](#) informs search engines such as [Google](#), [Bing](#) etc. about the most significant pages on your site. Hence the structure of your site can influence which content ranks highest in search engines.

[Internal and external links](#) are also crucial components of a successful SEO strategy since they help enhance SEO ranking power. It may take some time to master link-building optimisation procedures, but [Pro Sitemaps](#) does the job for you. It gives you a list of both internal and external links connecting pages on your website which are very useful to analyse the website's navigation structure. This will help you to increase your site traffic and improve your site's ranking in search engine results pages by utilising the opportunities it gives to you.

[PRO Sitemaps](#) is one of the best website optimisation tools because of its flexibility and user-friendliness. The features are diverse and beneficial to anyone who wishes to have a high-ranking page.

Furthermore, the software is compatible with a variety of computers and mobile devices i.e. it is available for Cloud, Android, iPhone and iPad users. You can set up an account right away here at <https://pro-sitemaps.com/>.
